

To Whom It May Concern,

It is our distinct pleasure to write this letter of recommendation for **Eyad Ashraf**, who has proven to be one of the most vital and impactful members of the International Youth Neuroscience Association (IYNA) October Chapter. As the President and Vice President of the organization, we have had the privilege of working closely with Eyad and witnessing firsthand his exceptional dedication, technical expertise, and leadership.

Eyad's most definitive contribution to our chapter was single-handed designing, developing, and launching the official website for the organization. This was not merely a technical task; it was a critical strategic milestone that established our digital presence, streamlined our operations, and allowed us to reach a broader audience of young scientists and peers.

Throughout the development process, Eyad demonstrated a rare combination of technical mastery and innovative problem-solving. He took full ownership of the project, translating complex organizational needs into a seamless, user-friendly digital platform. His work was executed with meticulous attention to detail, balancing aesthetic design with robust functionality.

Beyond his technical capabilities, Eyad distinguished himself as a cornerstone of our team culture. He is a highly dependable, proactive communicator who consistently delivers results under tight deadlines. His ability to collaborate effectively with leadership and align his technical execution with the broader vision of the IYNA October Chapter was exemplary.

Eyad is a rare talented highly skilled developer who brings passion, reliability, and a collaborative mindset to every project he touches. We have no doubt that he will bring the same level of excellence, innovation, and dedication to any future academic or professional endeavor he pursues. He has our highest and most enthusiastic recommendation.

Sincerely,

Abdallah Roshdy President, IYNA October Chapter

Jana Ahmed Vice President, IYNA October Chapter
